## Management Characteristics and Labour Conflict

## The Flight from Work

**GÖRAN PALM**

Göran Palm—a well known Swedish writer and poet—went to  
work incognito in one of the factories of L. M. Ericsson. His report  
is more literary than scientific, the language is concrete, and  
portraits, satire and dialogue are mixed to provide a full and  
lively picture into which the development of Palm's ideas is  
inserted.

## Work Revolution

PAUL DICKSON

Foreword by JACK JONES

*Work Revolution* describes the efforts being made in the EEC, Scandinavia and the USA to create a more productive and satisfying quality of life at work. In a series of fascinating case studies Paul Dickson examines different aspects of the subject:

- ★ Job enrichment and the humanisation of the production line
- ★ Industrial democracy and worker participation in management decisions
- ★ Profit sharing and productivity
- ★ Flexible working hours, or flex-time; and 'office landscaping'
- ★ Autonomous working groups within large organisations
